Fourth of July Time of Fireworks and Accidents

Fourth of July comes Monday! It was July 4, 1776 when the American colonies formally announced their severance from the Motherland of England and began the series of events which have culminated in American democracy.

To celebrate events, Americans spend hundreds and thousands of dollars on noisy and colorful fireworks each year. Fourth of July orators extol American citizenship, patriotism and love of country. Some take the words to heart and many forget them in the hurry to be some place else.

Large numbers take to the road and become tourists for the week-end while others remain at home and entertain friends ,relatives and acquaintances.

The publishers of this paper would like to issue a sincere word of warning against speeding on the highways and cutting in on other cars and against the heedless use of fire-works. It is our unpleasant duty to recount the activities of the week-end and usually we have to report a large number of mishaps from fireworks and motor cars. We hope our patrons will use care in the use of both cars and fireworks so that our paper will be free from accident reports next week.

SENIOR PICNIC

Miss Mary F. Hoar chaperoned the Seniors at a picnic dinner Tuesday at Lent's Grove on the Woodhull-Osceola road. Present were: the Misses Marion Miller and Ruth Mason, Martin Butler, Robert Olin, William Olin, Willard Towsley, Howard Mason and Miss Hoar.

Mrs. Esther Dart of Corning visited her parents, Mr. and Mrs. George Hotaling Sunday.

Finnerty Speaks To Lindley Graduates

The commencement of the grade schools of the Town of Lindley was held last Thursday night in Presho.

Frank B. Finnerty of the Vocational Agriculture Department of the Addison High School delivered the commencement address. Calvin U. Smith of Painted Post presented the graduates with their diplomas.

The commencement address was divided into three parts. The speak- listed as factors which would be helpful to the graduates in any line of endeavor into which the graduates might go. The first of these factors is, "to get the facts," today we are living in a world that demands real facts and not just fancies and people are learning and expecting young people to learn the actual facts of everything that may have an influence on their lives.

The second factor is "to be prepared", we are in a period of adjustment and in such periods many things are out of line, but the world is continually moving never stationary and you must be prepared for what the future holds not just for the present. The last factor is to "learn to think straight. So many of us are willing to let others do our thinking or we think with our emotions rather than our intellect that we don't think straight, but rather follow the fancies of the crowd".

Hi-Lights and Shadows of the Week's News

The Dutchess of Atholl, critic of British Prime Minister Chamberlain stated this week that Spanish insurgent guns wre threatening Gibralter. The Dutchess gave a detailed list of the guns she charges are "so placed they could drop shells in Gibralter, yet are invisible from the highest point on the rock."

A Chinese airman power-dived his flaming plane this week on the deck of a Japanese gunboat on the Yangtze River. The flier, whose ship was set afire by Jap anti-aircraft bullets dove directly at the target with his bomb-laden plane which sunk the vessel. The war is reported bogged down on all fronts as Chinese defense lines along the Yangtze have held the Jap assaults.

The announcement this week that House minority leader Bertrand Snell would not seek the G. O. P. nomination this fall led to speculation as to the new set-up next year. Republicans prominently mentioned are Martin of Massachusetts and Taber of New York.

The Japanese have invoked new military decrees prohibiting the manufacture of cotton yarn or cotton piece goods for any domestic use except the military. This is one more of the desperate measures being taken by the Japs in an attempt to win the stalemated war in China which has stretched out for nearly a year. The government now controls the employment and wages of both skilled and unskilled labor and has conscripted much labor for the munitions industry.

Cooking School Griddles Presented Winners Tues.

George Horn, representing the Williams Refrigerating Company in Corning was in Addison Tuesday to present the three Tappan griddles to women who won them in the Cooking School conducted recently by the Addison Advertiser. Those who received the griddles were Mrs. Harry Laffkas, Mrs. George M. Smith, and Mrs. Kellogg. All three expressed satisfaction and joy at receiving these prizes, among major prizes of the show.

JOINT MEETING

A joint meeting and roast of the members of the 20 and 30 Club and theEpworth League is being planned for Thursday evening, July 7, at Bear Falls. A committee composed of members of each group will supply the liquid refreshments and each person will bring their own meat for roasting, rolls, dishes etc. Those planning to attend will meet at the Methodist Church at 6:30 and arrange transportation. In case of rain the meeting will be held in the church parlors.

Summer Bring High Temperatures Here

Summer began officially shortly after 3 A. M. last Tuesday morning. And to prove that summer was really here the thermometer jumped from 60 on Sunday to 89 in the shade on Tuesday, the opening day of summer and the longest day of the year. It remained warm thruout the morning, afternoon and early evening. The nights since summer began have been cool to make the days seem warmer by contrast.

"Conscience as Life's Guide" Urged by Baccalaureate Speaker

Rev. Patrick Kelly speaks to graduates of class of '38 in high school auditorium—Tells students to have courage of convictions and beware of praise of men—St. Catherine's choir sings.

"Human respect is not as great as a clear conscience" the Rev. Patrick Kelly of St. Catherine's Church told members of the Senior Class of the Addison High School at the baccalaureate service held Sunday night in the high school auditorium. Holding this in the auditorium sets a new precedent for local baccalaureate sermons, for heretofore they have been held in the churches. But owing to the large number in this year's class it was believed by school authorities that the school auditorium would accommodate more. There were 600 present Sunday.

The class marched into the auditorium after the parents and friends had been seated. They were led by the class officers and honor students. Mrs. Francis Hill played for the march. The seniors were followed by the members of the Board of Education and their wives on the right side of the auditorium and members of the faculty on the left side.

The following young men of the junior class acted as ushers: Thomas Moshier, Arnold Hunt, Charles Bovee, William Croft, Walter Perkins, Robert Bullock, Douglas Aldrich, James Crawford, Andrew Travis and Thomas Lyons, Jr.

On the stage, which had been decorated with seasonal flowers, were: the speaker, the Rev. Patrick Kelly, Maurice E. Miller, president of the Board of Education, the Rev. John V. Axtell, the Rev. Garland G. Lacey and Principal Irving R. Gladstone.

Choir Music

Music was provided by the choir of St. Catherine's Church composed of Mrs. Michael Brennan, Mrs. Martin Train, Mrs. Edward Skelly, Miss Eleanor Hogue and Miss Florence Edwards, Francis Hill, John Croft and Leo Aug with Mrs. Hill as accompanist.

The choir opened the program with "O Salutarious". The invocation was pronounced by the Rev. John V. Axtell of the Presbyterian Church. the choir then presented the hymn "To Rest Within Thy Sacred Heart". A vocal solo "I dwell a captive" was given by Mrs. Brennan.

Father Kelly

Mr. Gladstone presided as chairman of the meeting. He presented Father Kelly who said in part: "Graduates of the class of 1938 of the Addison High School—we are gathered here to wish you Godspeed. We congratulate you on the completion of your high school work and also pay tribute to your parents who made sacrifices to make this night possible.

"Some of you may go to college and most of you will not. College is not necessary for success for it depends upon the individual as to whether he is a success or not.

Woodhull Plays Double Header July 4th

The next-to-cellar place Woodhull baseball squad will try to prove to league baseball nines that they have what it takes to win ball games this coming week-end when they will tackle two opponents on Monday and will also play at Addison Sunday. The two games Monday (Fourth of July) will be played on the home field. South Corning will be the first opponent in the morning at 10:30 o'clock. The second game of the day's program will be played at 2:30 o'clock with the American Bridge Works team, a non-league team, as opponent.

The Woodhullites have had some tough going this season but with a few more practice sessions and the addition of some players they hope to be able to get into the middle division in the league schedule within a few weeks.

Miss Mary Prindle of Elkland is a guest of Miss Dorothy Paul.

"Independent Thinking Needed In This Transitory-Propaganda Era" Pott Tells Class of 1938

Commencement speaker outlines problems for graduates to solve—Warns against subversive influences—Advises working for cause outside of self—America needs youth.

The principal speaker at the 63rd annual commencement exercises for graduates of Addison High School Tuesday was Dr. W. S. A. Pott, L. L. D., president of Elmira College. He said:

"The month of June is the open season for commencement speakers when over a million college and high school students are receiving large quantities of advice. Commencement speakers seem to be a sort of necessary evil decreed by custom and perhaps by heredity too. Recently I read that most delightful essay by Clarence Day entitled 'This Simian World' in which he says that because of man's simian ancestry, whatever he does, there must always be some talking about it—in other words, some 'monkey business'. 'He can't even make peace without a kind of chatter called a peace conference'. 'So precious to a Simian', he continues, 'is the privilege of making sounds with his tongue, that when he wishes to punish severely those men he calls criminals, he forbids them to chatter, and forces them by threats to be silent'.

"However this may be, the Simian commencement speaker does not propose to speak or chatter at any great length, having learned from experience that commencement addresses are not long remembered. On such occasions as this, there is always the strong temptation to advance one's own ideas about education and incidentally give advice on how success may be achieved if one's definition of education is followed. That temptation I shall try to resist. So much has been written and said about education, without notable results, that I am reminded of the epigram that 'Everybody in this country knows all about education. If he has had one, he knows what was wrong with it; if he has not had one, he knows what is wrong with everybody else's'. It is more or less true that we consider ourselves authorities on education—father and mother, Wilfred and Mary Jane, teachers and principals and superintendents and Regents, not to mention that low form of educational species, the college president.

"However, I do very much want to dwell briefly and sympathetically on what seems to me might well be a point of view or attitude of mind that you might take with you as you go forth from this pleasant scene of four happy high school years.

THE SUCCESSFUL GRADUATE

Another year has rolled around and another class has been awarded diplomas as proof of their graduation from Addison High School. Your class is the largest ever to be graduated from Addison High, a total of 57 having earned the right to take your places among the alumni of the school.

A few of you will go on to some other school which has facilities for offering higher education. Some will go into training to become nurses. Some will return to the farms where you were reared, there to put into practice better methods of agriculture. Others will go to work in various lines of endeavor. But to each of you leaving the ranks of undergraduates, the step now taken leads your lives definitely into a transition period. Yesterday you were boys and girls; today you have become young women and young men. Even though you are still dependent upon parents to send you to college or normal, when you get there the daily contact with your childhood home will be severed. You will now be on your own.

Most all of you have probably looked forward to this hour when you might assert your independence. Even though there has been no feeling of rebellion against parental discipline, it has appealed to you to approach the time when you could assert your independence. You have probably admired some older person almost to the point of hero worship, and have yearned for the day when you, too, could accomplish things like they have. You have unconsciously fought the bit and looked forward to acquiring the maturity which would allow you to pursue the course that seems most desirable, unfettered by a restraining rein pulled by father or mother.

Well, you are stepping out of the old life and into a new this week. And instead of celebrating the fact with a wild show of juvenile exuberance, you must sit down and decide what to do about yourself. You cannot very well celebrate your transition with kid capers, because you have outgrown the puppy and kitten age, and unless you show your age by your actions someone may still take you to be just a callow youngster. It would hurt your newly acquired pride to have someone mistake you for a high school freshman, so the first barrier to a new, unrestrained life is discovered. A self-imposed barrier.

And that is only one.

You will soon find that the unrestrained life is barred at nearly every turn with those unexpected barriers. At least it will be if you ever amount to anything as a man or woman. You have stepped out of a life of dependence into a new life of independence and strange as it may seem you will be far less independent in the new life than you were in the old. That is, you will be if you get anywhere in the new life. Father and mother will not be around all the time to say no to this and no to that, but your own better judgment will have to say the nays if the foundations are to stand under those dream castles you have been building.

Some people do not like dreamers. But as for me, I wouldn't give much for the boy or girl who never dreamed of bettering himself or herself. Out of the dreams of the cave man there developed a bow and arrow with which he could better kill game for food. Out of the dreams of James Watt sprang the steam engine. From the dream of Columbus came the pathway to this country. From the dream of Edison came the incandescent light. From the dreams of Curtiss and the Wright brothers grew the airships that now cross the continent in a few hours. Without the dreams of men back through the ages the race would not have progressed, your brightest prospects in life would have been to find a place where you could subsist on herbs and the flesh of such animals as you could kill with a flung stone.

Today you are starting into life at a time when a new idea has swept over the country. The new idea is a strange philosophy that encourages people to believe the world owes them a living whether or not they do anything to earn that living. You may have already come under the spell of that philosophy. It may sound like a good argument to you, for the ones who have money to be taxed heavily enough so that everyone will get part of it. But if you studied Roman history you know that the decay and fall of the Roman Empire followed closely the time when corn was given away in the city and its citizens were encouraged to become lazy and shiftless.

Having graduated from high school you know that it is not possible to get what you want without working for it. Looking around you will discover that most of those who seem to possess desirable things, work the hardest for them. Work and material success always go hand in hand and you will find if you are ever the possessor of a million dollars you will have to work hard to keep the money from slipping away.

Of course you will want to get the most happiness you possibly can from life. How to do it?

Two men graduated from college. One determined to make his life as helpful as possible to those around him. He studied scientific agriculture and went to India where he buried himself thousands of miles away from the scenes he loved best. In India he found millions of people living the most miserable existence because they did not know how to properly till the soil. This man began teaching these ignorant creatures how to cultivate the soil so that their condition was lifted from a state of slow starvation until they had enough to eat. And out of the happy faces of the children of India he had clung to an ideal to help, Sam Higginbottom found his life work crowned with the greatest satisfaction a man could hope to attain.

The other college graduate had a good time while he was in school and for a while after he got out of it. His father was worth millions, but in the stock market crash lost everything. Things went from bad to worse and the young man who had been the envy of his classmates, found himself stranded without friends, without money, without even an urge to make his own way. He had to eat, to solve that problem he washed dishes in a hash house. Nothing save a miracle will enable that man to salvage any lasting satisfaction from the remainder of his life. He thought only of self, and in the end had only himself for poor company.

Sam Higginbottom thought only of others, and millions are paying tribute to his unselfishness.

If you would fill this new maturity with worthwhile success, then impose rigid self- discipline.

Dream dreams of success which will enrich other lives as well as your own.

Work hard to make those dreams come true.

Live a life helpful to others.

And no matter how humble your lot, you will have achieved success.

RETIRING

No matter how tenaciously we would hold them back, the years drift steadily by forcing old friends and associates to one side in the remorseless changes which come with the changing years. Now word has been received in Addison that Fred J. Smith, former teacher here, has retired from the principalship of Upper Nyack School, after 28 years.

At first thought it seems impossible that Fred Smith can be going off retirement. He must be still a young man. Only as yesterday we recall how he used to visit the one-room country school we attended, on his rounds as school commissioner. At least once a year he visited us, even though he had to make the rounds of 121 districts with a horse and buggy traveling over the universal mud roads of those days. Vividly we recall the helpful words he spoke to the school on the occasion of those visits—well we remember the appearance of the young man and a chance remark made in our ear by a fellow pupil one of those days. Can it be that he is retiring because of years of service completed?

Yes we must admit the facts, and the facts show that it was 38 years ago Fred Smith began those visits as our new school commissioner. The facts also show that he started teaching in the rural schools near Addison 51 years ago, and that he became principal of the local Grammar School in 1894. More than half a century is a long time to look forward to, but it is a short time to glance back over the years. It is an interesting thing to see how Mr. Smith looks back over this span of years; how he approaches this time when he lays down a useful life's work. This we can do, for in the school news sheet of Upper Nyack School Mr. Smith has written his valedictory which we print below.

A Time for All Things

The Bible tells us, "there is a time for every purpose under the heaven, a time to be born and a time to die; a time to weep and a time to laugh; a time to mourn and a time to dance". The inspired writer might also have truly said, there is a time to accept and a time to resign.

For fifty-one years I have been engaged in school work; forty-two years as teacher and principal and nine years as superintendent (school commissioner) of rural schools. During the nine years as superintendent of rural schools, I had the supervision of one hundred twenty-one rural New York State schools. These were scattered among the pleasant hills and vales of Steuben County. It was a hurculean task to visit all these schools with a horse and buggy on mostly unimproved roads, but there was a joy and satisfaction in being in touch with these young, loyal American girls and boys of these country districts.

For the last twenty-eight years I have been teacher and principal of the Upper Nyack School. It has grown from a faculty of two and about fifty children, to a faculty of seven with about one hundred sixty children. The present high standing of our school has been due to the very generous support of the Board of Trustees and the splendid cooperation of all the teachers. Dr. J. T. Gilchrest, senior member and president of the Board of School Trustees, has served the district faithfully for twenty-five years. He has given much of his time and energy to the upbuilding of the school. The girls and boys will long remember his efforts in their behalf.

I love the school, and shall leave it with a feeling of regret. On the other hand I shall give up the work realizing that I have done my best, and with the satisfaction of knowing that I have the love and respect of all my teachers and pupils.

Fred J. Smith.

For one who has been so continuously in the harness it seems hard to break off a life's work. It seems doubly hard when one has been engaged in such a helpful task, as that which has occupied Mr. Smith. But having done his best he is able to retire with the satisfaction of know-

Found: a Common Denominator For Hague and Some of His Foes

By ISABEL PATERSON

Last week I heard several persons discussing a speech delivered by a well-known journalist at the convention of the American Newspaper Guild. The speaker, as reported, advocated the establishment by government of newspapers in large centers where control "of existing newspapers is in the hands of single interests." The speaker explained that he favored such a scheme in order "to bring out all shades of thought." He said that "integrity of the news is more important than any 'freedom of the press' catchword. If we can't get fair and accurate reports we are blinded." He also denounced propaganda as a cause or precipitant of war.

At the same time the newspapers in large centers were printing reports of the utterances of Mayor Hague, in court as the principal defendant in an injunction suit brought by the C. I. O. and the Civil Liberties Union and other groups on behalf of free speech in Jersey City. The journalist who wants government newspapers has himself more than once excoriated Mayor Hague on the same count.

But Mayor Hague really is "the government" in Jersey City so far as the powers of his office extend. He might very well hold higher office, with more extensive powers.

Could He Have Meant It?

In the private discussion of the government newspaper notion, one person said the journalist, by virtue of his profession and experience, simply must know better than to believe his own argument. He could not possibly mean what he said; all history, past and present, proved it to be nonsense. He must then have some ulterior motive or reason for propounding such a scheme; though even so, if it should ever be adopted, he would have helped to saw off the limb he was sitting on.

That point must remain a matter of conjecture. There is no possible proof. Not even a subsequent refutation by his own actions can discover whether or not a man means what he says when he says it. The trouble is that he may be quite capable of believing a jumble of contradictions and opposites at once; he doesn't even have to change his mind, no more than he would have to change a patchwork coat.

This defect is commonly taken to be most prevalent among the illiterate. It is not necessarily so. On the contrary, facility and training in verbal expression may aggravate a natural tendency toward intellectual incoherence. Each notion, as it emerges in a phrase, seems so neat and complete, it occupies the whole attention of the speaker.

The most likely illumination of the way the journalist thinks may be deduced from a study of the difficulties of Mayor Hague in reconciling his own discrepant notions. The Mayor is not adroit with words. He doesn't know how to suppress them. One may easily credit that he does say what he means and means what he says, sometimes more fully than he meant to—and the foregoing sentence shows what words can do. But a few quotations from the Mayor will indicate that a lack of verbal facility is a handicap to the inconsistent.

"You don't believe in civil rights?" Mayor Hague was asked.

"Not coming from that element," the Mayor replied. "When you hear that sort of cry about civil rights, you find the man saying it has a Russian flag under his coat."

The Russian flag is pretty good, but not as novel and arresting as a horse-and-buggy or an economic royalist. Still, if the Mayor had stopped at that, he could have stood his ground with himself—no matter about his auditors. But he went bravely on. "My method is to deal with them as a public official. . . . An American official should suppress them, like we do. . . . Now I was in Russia. I was there four days. A man can't talk against the government and live. An official told me that he would be shot down."

And right there the Mayor was in bad. He did not see the parallel coming until he was smack up against it. He should never have specified what it is the Russians do, which makes them objectionable to him, while he was in a position to be confronted with embarrassing actions and opinions of his own. He might have denounced the Russians one day, and justified suppression of speech "against the government" the next day, with comparative safety. Even if other people remembered and remarked the contradiction, he need not have permitted it to seep into his own mind. But he never thought of that. He has not had the training.

The journalist would encounter the same difficulties, if he were not more expert. He did not mention Mayor Hague while he was advocating government newspapers. He was not under cross-examination anyhow. So he could call freedom of the press a catchword, because he was actually getting the benefit of it; that is very important. He could offer a catchword of his own, when there was nothing to test it. The Mayor could only talk of law and order, which was another mistake when he was in court for alleged breech of the law by forcible ejections without warrants.

Overlooked Good Bets

Mayor Hague might study modern ideology with profit to himself. Then he could say that civil rights are merely a catchword; and there are other things more important. He might even have a catchword of his own ready in case of an adverse decision. He might say that it only went to prove that the courts are behind the times. They are not "integrated" with the Administration as they are in up-to-date countries, such as Russia, no, that would be a deplorable break; he had better not mention Russia at all. He could talk about "social justice" instead. Nobody knows what that is, so it has no back kick.

He could have explained, as the trained obfuscators do, that free speech is only necessary as a weapon against the bourgeois society; and must be suppressed in the interest of the people during a period of transition. If he were asked what constitutes a period of transition, he could say with reasonable accuracy that one Socialist, if not Socialism, was in a period of transition while being escorted from the middle of Jersey City to the ferry slip.

Mayor Hague overlooked a lot of good bets.

As for the journalist, it is possible that occasionally he remembers wistfully that Mussolini was a journalist.

CAMERON

The young people of this village attending Addison High School enjoyed a picnic at Watkins Glen Saturday. This picnic was given by the bus drivers carrying pupils to Addison from the rural schools.

Fay Chisholm of Hornell was a Sunday visitor in Cameron.

Mrs. James McNett and Mrs. H.A. Miles were shopping at Hornell Saturday.

The Hon. William Stuart of Canisteo was the principal speaker at the local graduation exercises held in the M. E. Church Friday evening.

Lyle Dickey ,teacher in Cameron school has the mumps.

Mr. and Mrs. Francis Jackson and family and Mrs. H. E. White spent Wednesday at the Jackson cottage on Keuka Lake .

Mrs. Marie C. Marlatt and Mrs. Myrtle Watson called on Mr. and Mrs. Asa Smith in Woodhull Wednesday evening.

Mrs. Charles Wilder has returned from Mt. Morris where she has been visiting her daughter.

Mr. and Mrs .Floyd Lathrop were in Elmira Tuesday.

Lattimer Brewster of Addison was a business visitor in town the past week.

Wayne Jackson of Buffalo visited relatives in town on Wednesday.

Stacy Jackson of Hornell was a recent Cameron visitor.

Mrs. Wickham Crocker of Addison was the guest of Dr. and Mrs. James C. McNett on Monday.

Mrs. E. A. Moore has been ill.

F. H Smith was a business visitor in Bath on Monday.

Mrs. Margaret Hallett of Cambridge, N. Y., who has been visiting Mrs. C. C. Leavens is now visiting relatives in Woodhull.

Miss Bertha Linderman of Tonawanda who has been the guest of Mr. and Mrs. F. H. Smith is now visiting relatives in Ithaca.

Mrs. Anna Jackson of Canisteo and Harley Stewart of Dansville were guests of Mrs. Josephine Leavens Wednesday and Thursday.

New Invasion of Farm Privacy

By MARK SULLIVAN

On this old Pennsylvania homestead, the end porch looks southward. In that direction, the skyline consists of the tips of trees. A considerable tract of woodland—larger than most of the woodlots in this closely farmed section—was saved by the early settlers and has always stood.

We cut an occasional tree for a timber needed to mend a building, and we use fallen trees for wood in the fireplace and the kitchen stove. But "the woods," as we call it, remains as it was when the first settler saw it—poplar; three varieties of oak—black, white and red; chestnut, now all dead from blight; in the low-lying parts, beech; in the less dense parts, walnut, hickory, locust and gum; some sassafras; on the edges, where they can reach out for sun, dogwood; many of the trees draped with the vines of the wild grape—called, in this neighborhood, the "fox grape."

Looking over the leafy horizon as I sit on the south porch, I see, against the sky just over the treetops, the gleam of the airplanes as they pass some ten miles away, on their several daily trips between New York and Washington. Sometimes I see them without hearing them—those are days when the wind is from the north and blows the sound down into Maryland. Sometimes I hear them without seeing them—that is when a south wind carries their hum toward the house, while an overcast sky makes them invisible.

As I watch them, my reflections are usually about time and change. On this farm, and along the road that passes about an eighth of a mile away, between the house and the woods, I have seen, in one not very long lifetime, about all the methods of land travel that man has known—a hundred ancient centuries of transportation telescoped into not much more than half of one modern century.

From Oxcart to Plane

In my early childhood the slow trudge of the oxcart was still seen occasionally. All pairs of oxen had the same names—one was Buck, the other Berry. But which was on the left and which on the right, which was the "near" ox and which the "off" ox—that esoteric detail I was too young to grasp, or do not now remember. About the same time there were four-horse teams that used to draw great wagons filled with lime for fertilizer on the farms, or hay to be hauled to the railroad and shipped to the city.

A little way up the road from this farm lived a drover—the last of his calling in this neighborhood, and close to the last in any part of America. Throughout the summer he would travel in near-by counties, buying beef cattle and assembling them on his farm. Two or three times a year he and his helpers, uttering cries of "hi" and "ho," would drive the assembled herd down our road toward the city.

I saw all the varieties of two-wheeled wagon, the cart for work, the dogcart for pleasure, the sulky for horse racing; and all the four-wheeled vehicles, the buggy, the carriage, the phaeton; and the jagger wagon and Dearborn. The young men of the neighborhood rode horseback, a dashing gesture of youthful high spirits. We boys on the farm knew the pace of each neighborhood horse; in the night, as hoofs sounded on the wooden bridge, we would say, "That's Charley Burnite" or Will Dantz, or whoever it might be.

Red Flag Preceded Tractor

I saw the bicycle come, the high-wheeled one first, the safety later. I saw the first automobile that passed on that road. Only it was not an automobile; it was a traction-engine, driven by steam, which pulled the threshing machine from farm to farm at a pace much slower than that of a horse. A hundred yards ahead of it—the distance and the precautions were fixed by law—a man walked carrying a red flag. If he met any one driving a horse he must—this was the law, too—take the horse's reins and lead him past the fearsome mastodon of iron.

These things I reflect upon, as I watch the airplanes pass ten miles away. But now, I am told, an airplane is to come nearer and give me something new to think about. Some time within a few weeks or months an airplane is going to come to a spot above my farm and turn and criss-cross from corner to corner of my land. In it will be a minion of Secretary Henry A. Wallace—no less.

I read about it in publications of the Department of Agriculture. It is for aerial photography. The A. A. A. is going to photograph my farm, so as to measure each field, and see what is planted on it, and how many cows are on the farm, and whether everything conforms to the A. A. A.'s crop control regulations. The A. A. A., I read officially, has awarded "contracts for 340,183 square miles of aerial photography in twenty-one states . . . Aerial photography is a cheaper and more accurate means of checking performance on farms. With the use of a 'planimeter' the area of the separate fields can be determined . . . Enlargements are made at a standard scale of one inch to 660 feet. In 1935, as a beginning, two Missouri counties were completely photographed for the purpose of determining compliance with the 1935 corn-hog program."

That isn't something new in transportation. That's something new in government—the snooper from the heavens, the sky spy.

FRENCH HILL

Mr. and Mrs. Charles Clinton and son Fred. and Will J. Barrett attended the Parker reunion at Branchport Saturday.

Dr. McNett of Cameron and Mrs. Jane Mack of Bath were called to see Mrs. Lizzie Townsend recently. Her condition is not as good as her many friends would like to see.

The much needed rain came Saturday night in this section.

Mr. and Mrs. Walter Townsend of Bath called on Mr. and Mrs. H. K. Clement Friday evening.

Addison Business and Industry Presented in Story by Crane

Payrolls in Addison aggregate nearly $600,000 annually was the startling information given by Attorney Charles L. Crane to the members of the Addison Advertising Club and guests Thursday night at a dinner meeting held in the Methodist Church. The program was known as "Addison At Home" and designed to show the people of Addison what they have that is worth while. There were 96 present. Songs were led by the Rev. John V. Axtell, with Miss Janet Taylor as accompanist.

President Ray Brown presided. He introduced "Money Monroe" Elmira baritone and former Boston National League ball player who entertained with the following selections, "I Love Life". "Wagon Wheels" and with Mrs. Monroe presented a duet, "Wanting You". Mrs. Monroe was his accompanist and Miss Taylor accompanied for the duet.

Mr. Crane was then introduced and he opened the program by saying he would conduct the meeting as a law suit with the people as the jury. He told his audience he would refresh their memories on things that have been before their eyes since 1840 and said "I have here to present your town to you. The summing up will be sketchy. I am not going to speak, but make a presentation of facts we all know.

Address to the Jury

"If it please your honor, and you, ladies and gentlemen of the jury, tonight has been called Addison Night and we have thought it a good time to present some of the things which make Addison the best place in which to live. Our brief, therefore, is for Addison and its environs.

"In these troublous times, when in Europe today brute force is on the march—when barbarian hosts are inviding civilization's fortresses, it is well for us to remember that we still have in this country freedom of the press, freedom of religious worship, freedom of speech, protection for the home, trial by jury, courts of integrity, and a right to vote in the government. In this day of great quack remedies and nostrums it is well to call to mind, as has been said by a great statesman of the past, "the prosperity of a nation does not depend upon money in circulation, natural resources, or even distribution of wealth. The United States has possessed untold natural resources for millions of years but she began to prosper only when men of character, thrift, initiative, ability and patriotism, when men willing to make sacrifices, willing to take risks, replaced the roving savages. Importance of character, not reputation, has not lessened, in fact is becoming more important every day since the last frontier was passed, and when the majority of our citizens are willing to roll up their sleeves and help pull the cart we will again have prosperity—but just so long as too many insist upon riding in the cart, recovery will be retarded and it is one of the purposes of this meeting to help to bring the idea home to all of us more closely—that we must get the slackers out of the cart.

"Our resources in this community, (and when I say community I mean Addison, Erwin, Tuscarora, Lindley, Thurston, Rathbone, Woodhull and Cameron, at least), are such that it only needs men and women of character, thrift, initiative and ability, willing to sacrifice, willing to work, willing, yes, anxious, to do their part in the development of those resources, to roll up their sleeves and help to pull the cart. It needs only such—to work together—to return this country to such a state of prosperity as it has never known before. Addison, (the hub of this wheel — our community), with a population of 1600, lying in the fertile Canisteo valley, surrounded by wooded hills, easy of access from all points by the Erie and B. & O. railroads, and our hard surface highways, with its many beautiful and homey homes, its magnificent shade trees, its healthful climate, its fairly prosperous people, its natural gas, electricity and water (at least equal to most and superior to many systems in the state in communities of comparable size), its business opportunities, its high moral tone, its schools, churches and businesses, its spirit of comradeship and co-operation, stretches forth its hands in welcome to all with the assurance of equal and just treatment for everyone of its citizens, and the will to see that equal justice is done to all.

Point I

"The Ad Club has been potent in the life of this community. It is not a penal force. We issue no edicts, we enforce no laws. We advocate high incentives, a happy and noble fellowship. We are undaunted of purpose and with high hopes for the future, not only of our community, but for all the world. We are all citizens, Catholics, Protestants and Jews, enjoying equally the incomparable benefits which our Republic offers. This lofty privilege entails heavy obligations.

"We keep before our eyes the aim of the United States Constitution, namely, the insurance of justice for all and the duty of the individual to add to the common welfare. We urge the contribution of our full personal share to the continuance of the Democratic spirit in which this country was cradled and nurtured. This we must do or be recreant to our trust. We stand squarely and unequivocally behind any movement for the betterment of the community.

"This is the spirit of the Advertising Club of Addison, and can be no better stated than in the words of the poet when he said:

'For the right that needs assistance,
For the wrong that needs resistance,
For the future in the distance,
For the good that we can do.'

Point II
Our Churches and Religious Life

The churches are: Presbyterian, Methodist, Episcopalian, Baptist, Catholic, with their five leaders of religious thought who stand preeminent in their field and teach us that nature's immutable laws lead to the inevitable conviction of heart, mind and soul, that there is a Grand Architect of the Universe, and that the Ten Commandments (Mandates of the Great Architect of the Universe) for the guidance and inspiration of man, are of Divine origin.

Point III
Addison High School

"Point three, your honor and members of the jury is the Addison High School. The total number of pupils enrolled is 602 of which 384 comes from District 1, which is practically the village of Addison and 218 come from other districts. It is surprising to know that 42 districts are served by District 1. Not all of these districts send academic students every year. There are 20 teachers with an annual palroll of $30,525 and three assistants with a payroll of $3,600 making a total school payroll of $34,125. In addition there are three adults working on the N. Y. A. receiving $544 annually and 12 students working on N. Y. A. who receive $648 making $1,192 additional in school payroll.

Point IV
Addison Bank

"As an integral part of this community, the bank in Addison was chartered in 1856 by Smith and Henderson which charter was surrendered in 1861 at the commencement of the Civil War. In 1867 the present bank was opened by Lattimer and Winton and continued as a private bank until the year 1899 when its successor, the present First National Bank of Addison, was organized by its leading citizens. The deposits in the banks are a very fair criterion as to the prosperity of a community and for that purpose I am making a few comparisons:

Population	Deposits	Town
1,540	$814,000	Addison
2,330	280,000	Painted Post
2,550	440,000	Canisteo
1,815	860,000	Wayland
1,065	640,000	H'port

This bank serves eight townships and has at all times been able to meet the financial needs of the community. No outside assistance has been required and the bank stands as a bulwark to this community. It has participated in all of the movements for the improvement of Addison and around it, of course, have centered all the financial transactions of the community. Its faithful, intelligent, honest and industrious business methods have given it a high rank in banking circles throughout the county, the state and the nation.

Point V
Agriculture and Dairy

During the year 1938 the following total amounts have been received in Addison as a result of milk sold and shipped from this community: January, $27,295.90; February, $25,128.47; March, 24,794.69; April $28,134.32; May, $25,268.27. The total for the five months is something over $125,000.00 and undoubtedly the milk industry means a return in actual cash to this community in the course of each year from all sources of at least $300,000.

"In addition to the above, the agricultural returns from all crops and productions, exclusive of milk, will exceed $50,000.

Point VI
The Railroads

"The region is served by two railroads, the Erie and the Baltimore and Ohio, formerly the B. and S. The railroads pay one-third of the taxes in the corporation and while I am not a corporation lawyer I do favor their having a fair return on their investment and believe they are a distinct asset to any community. The Erie Railroad employs 32 men in Addison, many of whom live and own homes here. Their annual payroll here is $60,000 and last year they paid in taxes $6,293.09, more than any two or four individuals in the community. The Baltimore and Ohio Railroad employs eight men here with an annual payroll of $12,000 and last year they paid $969.22 in taxes. The total railroad payroll for Addison was therefore $72,000.

Point VII
Pep-O Bakery

"One of our leading industries is the Pep-O Bakery owned and operated by William Pepper and Llewellyn Towner. Few young men would have taken the chance these young fellows did in investing in an industry, which has become one of our leading businesses. They employ from 15 to 20 local people living in Addison and their annual payroll is from $19,000 to $20,000. Six delivery trucks cover 800 miles daily and consume 22,000 gallons of gasoline annually, which is purchased locally. Their plant is equipped to turn out 11,520 loaves of bread daily. White, whole wheat, salt-rising, buttermilk, vienna and raisin breads, a full line of cookies, rolls and sweet goods are baked in their splendid plant. The company uses 3,443 barrels of flour and seven and one-fourth tons of yeast annually in the manufacture of Pep-O bread. All trucks, equipment and materials are purchased locally as far as possible. A large expansion program is planned for this bakery and it is entitled to the loyalty and undivided support of this community. On display on the rack behind me are the products manufactured in the Pep-O Bakery."

Point VIII
J. S. Harrison Company

Mr. Crane then presented Charles Brewster who spoke for the J. S. Harrison Company. Mr. Brewster said, "It is a surprise to many that we manufacture the wood parts for the Flexible Flyer sled. This sled's wood parts are all made here from blue prints and the parts have to be accurately milled. Last year we turned out parts of 100,000 sleds and when you realize there are ten wood parts to a sled you can see we handled over a million pieces last year. In addition we manufactured over 60,000 cultivator handles. In addition to the Flexible Flyer we make parts for the Yankee Clipper and the Sled on Wheels, all products of the Flexible Flyer Company. Through the courtesy of S. D. MacDowell, local dealer in these products, I am able to show you the completed products. It may interest you to know that Admiral Byrd had three of the largest sleds on his trip to the Antarctic for transporting supplies.

"The wood parts go through the following machines: ripper, cutter, resaw, mounder, shaper, stationary scraper, inspector and are then bundled for shipment for we make only the wood parts. The center pieces go through a band saw process in addition to those mentioned above. At one time we were enabled to turn out 1,000 daily but through the invention of Mr. Tompkins in our plant we are enabled to have two men turn out 10,000 parts daily. This machine was patented and after it was set up the blue print was destroyed so our competitors could not learn our process. Only the best grades of ash are used in the process. Last year we employed 25 men. I will now introduce the men who make possible these processes: Maynard Hendley, Herbert Ellison, Edward Cook, William Wood, Lewis Van Cise, Lester Cook, Albert Maier, Harrell Cook, Raymond Cook, Clarence Williams, Eugene Wade, Merton Hall and William Simons."

Point IX

"The Ingersoll - Rand, Corning Glass Works and Elkland tannery employ 20 to 30 men who live in Addison with an approximate payroll of $15,000 which comes into Addison.

Point X

"The Sisto Lumber Company, successor to Park, Winton and True, employs eight men who live in Addison with an approximate payroll of $8,500. The wholesale value of the stock on hand is $40,000 and they carry a complete line of building materials, lumber, flooring, roofing, gypsum products, metal roofs, glass and paint.

Towner's Garage employ three to five men with a payroll of approximately $5,000. In addition the Steuben County Highway Department has an Addison payroll of $9,000 to men who live and make their homes here.

Other Businesses

Other businesses are: S. C. Erwin, John B. Davis, S. G. Ricker, John E. Chart, Lynn Taylor, Market Basket, Great Atlantic and Pacific Tea Co., Cohen Brothers, M. G. Hubbs, Fred Frost, Tyson's Newsroom, S. D. MacDowell, Avon Theatre, D. J. Colbert, F. S. Whitmore, L. E. Handy, Kate Ferris, Ernest Shelanskey, L. D. Blakeslee, Sackett & Taber, Southern Tier News, Inc., Family Shoe Store, Ruth Ann Davis, Walter M. Goff, Peter Doddato, Fred D. Sutliff, L. W. Barr, Grant Baker, H. W. Laffkas & Son, Crane Insurance Agency, W. B. Leete, Inc., Coral Payne, Isabel Chart, Lela Pepper, John Wright, Roy Omelion, Luke E. Brown, F. L. Bastian, Angelo Sisto, M. O. Grange, James Gilhooley, Eagle Hotel, Mrs. Charlotte Brennan, Mrs. Ellen Hickey, Bernice Aumick, Mrs. George, Mrs. Wilma Mose, Addison Dry Cleaners, B. F. Short, Leonard B. Hoaglin, F. G. Clark, H. E. Auringer, W. E. Barron, Stuart Bean, M. S. Whitmore, Charles Salerno, Hugh A. Varn, Charles L. Crane, Ralph B. Dykins, Lattimer Brewster, W. R. Crocker, Addison Home Telephone Co., Amos G. Stiker, William Kittle, Kendall Gas Station, Shell Gas Station, Standard Oil Gas Station, Chatfield Garage, Cities Service, Henry Shelanskey, Preston Ferris, Frank Hess, John Russ, Root's Station, Ernest Sareen and many other smaller places, all with an approximate payroll of $30,000. Any of the above you don't know about, I will be glad to enlighten you.

"We enjoy the advantages of natural gas because a group of public spirited men of this community contributed $30,000 for the erection of a line from Nelson, Pa., gas fields and so far as I know never received a return on their money.

"We enjoy the advantages of a small community with beautiful homes, shade trees and restful lawns. In no case do I know of where a large industry in a small town is successful unless that industry is indigenous to that region.

"Of course there are the problems of our fraternal organizations, of which we have 61 social, fraternal and religious groups. We realize some things should be and can be corrected. The Advertising Club supported by the Women's Civic Society can accomplish much.

"For scenic beauty this section cannot be compared for go to the top of Jones or Goodhue Hills, Bald Knob, Gulf Hill or the Pinnacle. No matter what you say, I want you to feel as I feel about Addison as a home and a place in which to live.

"In addition, let me say that the village of Addison has 7 and 1/7 miles of hard road consisting of macadam, concrete and brick.

"Our newspapers, 'The Addison Advertiser' and 'Woodhull Sentinel' published by the Southern Tier News, Inc., with headquarters at Addison, employs 5 to 7 people with a substantial annual payroll—$6,000.

"Our agricultural industry is probably the most imposing of any, yet a community like ours, in order to have a permanent success, must be composed of a number of small industries, some of which I have outlined to you tonight. Many other villages of comparable size have tried the large industries but in no instance is it proving a success unless the business is indigenous to the locality.

Addison is also extremely fortunate in having natural gas and at what is determined by the Public Service Commission to be a reasonable price. When natural gas was procured for Addison several of our leading business men had to advance $30,000 before the pipe line would be run from Nelson to Addison. This money was practically all lost by those who made the venture yet Addison has always enjoyed at least the equal privileges of a city the size of Corning so far as gas is concerned, and is now enjoying the same privileges of electric service.

"Our water works system is one of the best for villages of comparable size and the cost to us is much less than in the greater number of villages and cities in the State of New York.

"Addison, on the whole, is a place of happy homes, a fairly prosperous people and ready at all times to do its duty and render all service necessary for its continued growth and prosperity.

Senior Class Activities Many Since Freshman Year

The present senior class of 57 members has had an active career since forming as a fershman class in Addison High School four years ago. Yesterday's (Wednesday) final alumni services, when they became members of the Alumni Association, marked the final chapter in the four-year career as high school students and the opening or beginning step on their way through the business life or more advanced education stages of their progress through life.

Miss Maude Butler, president of the class, has cooperated in making possible a list of the activities during the past four years. Some of the information is not complete as records have been lost or mislaid.

Organized in 1934

The class was organized in the fall of 1934 with John Smith as president, Charles Johnson as vice president and Anna Brennan as secretary. One of the unique organizations of the school was formed in this class in "The Eyes and Ears of the Freshman Class". The outstanding social event of that year was the weiner roast held in the rear of the high school. The freshmen could not wander far afield for they were meek and afraid.

Sophs

Barbara Whitmore was elected president when the class reached the sophomore year and the weiner roast this year saw the class strutting bravely away from the schoolhouse to Hickory Nut Grove. The class also took its place in the programming for they presented an assembly program. A feature of this was a talk on the life of Mark Twain by Miss Whitmore.

In the junior year the class found a new president in the chair. John Orr was chosen to hea dthe class and he was assisted by Edward Auringer as vice president, Edward Horey as secretary and Lucy Beers as treasurer. The weiner roast during this year was rained out and the students took their refreshments into the schoolhouse and ate. The class also united with the senior class for a picnic at Watkins Glen. The group also produced a play "The Ghost Walks" a three-act production.

Senior Activities

As is usual the greatest number of activities came after the class organized as a senior group. Miss Maude Butler was chosen president, Edward Sprague as vice president, Barbara Whitmore as treasurer and Catherine Burton, secretary. Joseph Coleman of the class was also chosen president of the Student Council. Edward Horey and Lucy Beers of the class were chosen class representatives on the Student Council and Helen Kneaskern was chosen on the Assembly Committee with Onolee Little and John Orr on the Athletic Association governing board.

The schedule of events began in October with a weiner roast in the Hargrave cottage and on October 29 a masquerade dance in the high school auditorium.

Sponsors Drama

The list of November activities began when two of the class members, Barbara Whitmore and Ellen Knebel were chosen heads of the Reflector staff, November 8 the class sponsored two Shakespearean plays, "Macbeth" and "Merchant of Venice". November 19 the class produced "Big Hearted Herbert", a three-act farce comedy under the direction of Mrs. Alice J. Breese, class advisor.

In all activities committees have functioned nearly 100 per cent making work of faculty and officers less arduous and bringing greater success to all ventures.

Two events were on the class calendar during December including a sleighride and a dance at Christmas time.

Throughout this program of extra-curricular activity members of the class were winning scholastic honors in various classes and taking an active part in other school activities. The class was also interested in promoting these affairs with a goal in sight. This was a vacation trip to Washington at Easter time and all events were held with this objective in view.

February 26 a sports dance was held in the high school auditorium and the next day a bake sale was held to aid in raising funds. The dramatic motion picture "Queen Victoria" depicting the life of that glorious queen and beloved ruler of England, was sponsored as a senior benefit. March 22 the seniors sponsored a public supper in the high school commercial rooms.

Through most of the events scheduled, especially the bake sales and suppers, the class members had the cooperation of parents of members and were deeply appreciative of this cooperation.

To Washington

The biggest event of the year was the Easter trip to Washington from April 19 to 21 inclusive. This was historic, scenic and educational as well as a pleasure jaunt.

Commencement

June 3 the class sponsored a senior dance in the high school, was the honor class of course at the baccalaureate June 26, attended the Junior-Senior picnic Monday, June 27, was formally graduated Tuesday June 28 and became alumni Wednesday, June 29.

To renew these acquaintances and good times the class will take an active part in the future alumni meetings.

Retiring

(Continued from page two)

ing that his life has helped hundreds of young people in the formative years they were under his guidance. And like the ripples started by a pebble cast into a quiet pool of water, he will never know how far that influence went, nor the lives it indirectly touched.

The people of Addison will want to add their congratulations of the people of Nyack since Mr. Smith has completed a good piece of work. And they will hope that now this work is finished he will return with Mrs. Smith to the old home town, to live once more among the old familiar scenes and the old friends. Fred Smith, as you bid farewell to active teaching days, Addison bids you welcome home.

Fourth of July Don'ts

Pointing out that the toll of eye injuries among the children and adults is still needlessly high the State Commission for the Blind yesterday listed ten easy Fourth of July DONT'S to help reduce blindness:

Don't try to investigate unexploded firecrackers (they may be just going off).

Don't be careless with blank cartridges (a powder blast may mean the loss of sight).

Don't stand near a tin can with a lighted cracker under it (the can may shatter and hurl metal splinters into the eyes).

Don't put a lighted firecracker in a bottle ((glass splinters frequently strike the eyes).

Don't hold sparklers near the eyes (they are not harmless).

Don't hold Roman candles except parallel to the body (they may backfire)

Don't throw lighted firecrackers near anybody (this may blind another person; it has happened)

Don't stand near a bursting torpedo.

Don't get near a rocket (it sometimes shifts direction and may strike back).

Don't spoil your fun by jeopardizing your own or another person's eyesight or life by being careless.

Trophy Unveiled

At the banquet held in honor of the winning baseball squad about 30 fathers and sons were present and greatly enjoyed the chicken dinner served by the ladies of the Methodist Church, after which the trophy was unveiled by Harold Cady, captain of the team, who presented it to Coach Alfred Brush. Iin words which expressed his satisfaction in the sportsmanship and co-operation of the team, Mr. Brush responded and he, in turn, presented the trophy to Principal Joseph Horton to place in the case as a permanent possession of the school. Suitable remarks were also made by Mr. Horton and the Rev. Herman Barbery and then the trophy was placed in the case with the other two which have been won by this school in inter-school athletics.

Present Operetta

The operetta "The Giant's Garden" was successfully presented at the promotion exercises Friday night and much credit is due to Miss Christine Orr and the other teachers who worked hard in perfecting it. After the operetta, promotion certificates were presented by Principal Horton to all grade pupils eligible for promotion.

School Meeting

The annual school meeting of the Troupsburg Central School will be held in the school auditorium on Tuesday evening, July 12 at 7:30 o'clock.

90 Attend Banquet

The alumni banquet which was served in the central school auditorium Saturday evening was attended by about 90 alumni and friends. After a short business meeting, the program was turned over to Paul Dempsey who acted as toastmaster. Toasts were given by Kathleen Keegan, Virgil Bollen, Marcus Tubbs, the Rev. Paul Rummell, William Rude, Clair Potter, the Rev. Herman Barbery, and Principal Joseph Horton. A fine dinner was served by the junior class under the direction of their sponsor Miss Elizabeth Nichols.

DEGREE CONFERRED IN ODD FELLOWSHIP

The second degree in Odd Fellowship was conferred on John B. Davis at a meeting of the Addison Lodge held Monday night in the Odd Fellows Temple. He will be invested with the third degree at a meeting in Painted Post Tuesday night. The Painted Post degree team will confer.

Fred J. Smith Is Retiring

Fred J. Smith, native of this place and the town of Tuscarora, has announced his retirement as principal of the Upper Nyack School, to take effect with commencement this month. The Journal News of Rockland County carried the following story of Mr. Smith's work in that community:

Half a century ago a young Fred J. Smith was teaching in one-room schools in rural upstate New York. Tomorrow evening his score of friends and former pupils in Upper Nyack will gather to honor him at the close of 28 years as principal of that growing school.

Announcements of the reception at the school by the Board of Education and the faculty in honor of Mr. and Mrs. Smith are for many people the first news that Mr. Smith is retiring at the close of this school year. Graduates and the general public are invited by Dr. John T. Gilchrest, president of the school board, to participate in the demonstration of respect for the principal and his wife.

Not many teachers or principals in Rockland County can point to a record of 28 years in one community. Mr. Smith, furthermore, has attained distinction by his receptive attitude toward new ideas in education, with the result that the usual compliment the Upper Nyack School receives is that it is "most modern".

Fundamentals are far from neglected under Principal Smith's up-to date regime. Witness that Upper Nyack this year won the county grammar school spelling bee for the third time. Rosaline Salamone went through the first trial of 100 words without an error, the only child in 40 to spell flawlessly, and she won handily in the second test of 175 words. Spelling is taught soundly at the Upper Nyack School.

Spelling Victories

Mr. Smith takes keen pride in the spelling contest victories, recalling the previous triumphs of Marjorie Kalaidjian and Anita Wirshup, and in the blue ribbons won by the school at the Orangeburg Fair for three years.

"Changes in school policies have been for the better during my time", he said. "Even the basic subjects like arithmetic are changed in the syllabus. As for the newer activities of school, they are necessary to keep the children profitably busy, to take the place of work they formerly had to do at home."

He pointed to a kindergarten class project, a row of "stores" representing a Nyack business street, complete with traffic lights, signs and other stage properties aiding in practical instruction in safety on the streets. He spoke of the sewing and cooking classes, the school garden, the unusually well-equipped playground and the shop.

"We have tried to keep abreast of the times, he said.

Mr. Smith first taught for about eight years in small rural schools, followed by six years as principal of Addison Grammar School. Addison became his adopted home town and he still has ties with the community, a sister, Miss Helen Smith, teaching English and a brother-in-law, Robert A. Willson, recently retired as high school principal after many years in the office.

Superintendent Upstate

From 1900 to 1909 Mr. Smith was superintendent of rural schools in Steuben County, with 121 rural schools under his supervision. He had to tour these schools constantly by horse and buggy, over unimproved roads.

This large supervisory district, incidentally, has since been divided into two districts, over one of which his brother, Frank H. Smith, is superintendent.

When Mr. Smith came to Upper Nyack in January, 1910, as upper grades teacher and principal, he found a two-teacher school with about 50 pupils. Miss Ecker was the other member of the faculty at first, followed by Miss Lena Weeks.

The school now enrolls about 160 children under seven teachers.

Rathbone Church Prepares For Old Home Day

Old Home Days will be observed in the Rathbone Methodist Church Saturday and Sunday, August 27 and 28, according to an announcement by the committee after a meeting held Thursday night.

Orville Sprague will be general chairman and he will be assisted by sub-chairmen who will have other workers with them. Those who will head other committees are: William Newcomb, entertainment; Harold Widger, advertising; J. Coleman, hot dogs; William Widger, ice cream booth and Edward Preston will serve on the general committee.

Members of the Ladies Aid under the direction of Mrs. Clara Risley will have charge of the preparation and serving of meals both days of the celebration.

It is expected that several former pastors will return to give short addresses. In addition there will be a program of sports and entertainment through the day Saturday and a program of entertainment Saturday evening.

HOME BUREAU SCHEDULE

Members of the Rug Club will meet with Mrs. Raymond Dann at Freeman June 22. A picnic dinner will be served at noon. Members wishing transportation are requested to meet at the S. C. Erwin Store at 9:30 sharp.

Garden Club members will hold a dinner and meeting July 12 at the home of Mrs. A. B. Ackerson. The meeting will be called at 2:00 o'clock. Mrs. Moyer will be the leader.

The next regular meeting of the Home Bureau will be a picnic at the home of Mrs. Earl Beatty on the Woodhull road July 20. Mrs. Beatty as chairman will be assisted by Mrs. Albert Root, Mrs. Walter Rusby, Mrs. Alice Smith, Mrs. George M. Smith and Mrs. Lewis Greengrass.

"Conscience as Life's Guide" Urged by Baccalaureate Speaker

Continued from page one

Christian virtue of Christian manhood. Sometimes people inquire the meaning of Christian society. A Christian believes in Christ. Churches are not necessary for a firm belief in God. Primitive man lived in mountains, early man worshiped in caves and others worshiped under the canopy of Heaven. It is necessary to teach men and women and boys and girls the fundamentals of Christianity and morality.

"We have many churches. We also have many schools where it is necessary to teach the fundamentals of education. It is here where you are taught the love of country and the fear of God. Hospitals are necessary to administer to the few in need of relief from pain and so we say the churches are necessary to teach religion.

Courage of Convictions

"We need Christian men and women endowed with the courage of their convictions. You should be motivated by truth, justice and love of your country. Uphold all that is good and just.

"Tell me your character and I will tell you your destiny. Character is a thing of beauty that sets man above the animals. If we have not character we forget the Maker of every good and perfect gift and our duty to our fellow man. Character is necessary for the perfect man.

"You may not gain honors in civil, political or ecclesiastical life. Such honors will always pass away. You must lay away treasures for the hereafter.

Follow Conscience

"Follow your conscience and you will be a success in life. You will also have the approval of God and of your fellow men. Character is something that will not rust and decay as material things do.

"And, students, you don't need the respect of your fellow man as much as you need the respect of God and an honest conscience. Human respect is condescending. It is a vice by which man shows his affection for man, many times at the expense of his conscience. If we try to please man we may not please our conscience. Man must please God his creator to gain Heaven. Man must live up to his conscience to please God as his master.

"The man who stifles his conscience to please his friends has as many consciences as friends. Our conscience tells us what is good and what is evil. Live up to your conscience and you will be a good citizen. Be faithful to God and country and be not afraid to stand up for your convictions.

Honor Parents

"We honor you graduates tonight. And we say to you, in the future show your gratitude to your parents for the sacrifices which made this night possible.

"Take your motto for life from the life of Christ who did so much in the world without material reward. Try to show by your example that you are a Christian.

"I extend to you all my sincere congratulations and may the Lord bless you all as you begin this trip through life, a trip you know not where. Obey your parents and superiors and life will be good to you. I thank all who helped make this graduation exercise a success".

The choir sang "Ave Maria" after which the Rev. Garland G. Lacey of the Methodist Church pronounced the benediction.

Students Must Get Social Security Cards

Students and new graduates who will enter commercial and industrial employment this summer are reminded they will need social security account numbers. Before beginning employment, they should apply by mail or in person to the field office for a number. In some localities an application blank may be secured from the local postmaster but the number is issued from the Elmira field office. It is estimated by the Federal office of education that approximately 1,000,000 students may begin their business careers this summer, or take a job during vacation.

Whether the employment is part-time, temporary or permanent, and although the employer has no other employee, a report of the employee's wages together with his account number must be made to the Federal Government by the employer. The employee is required to report his account number to his employer. All wages an employee receives during his entire life from employment covered under the old-age insurance system will be counted as credit toward his old-age insurance. Old-age benefits are based on total wages received.

Wages for temporary or part-time employment, no matter how small, will increase by that much the worker's credit toward old-age benefits. It is, therefore, important to the employee that his wages reported by his employer be identified by an account number so that they will be correctly recorded in his old-age insurance account.

Merchandise sold on the instalment plan during 1936 amounted to $4,580,000,000. Nathaniel H. Engle of the Bureau of Foreign and Domestic Commerce, views the size of this figure as a danger signal which, if not heeded, might lead to another crash like that of 1929.

Canisteo—Over 2,200 pullets were destroyed in a fire on the Peter Katsoris farm near here last Thursday.

"Who and Where" Among Our Woodhull and Vicinity Folks

Charles Sutton of Elmira and Mr. and Mrs. George Sutton of Campbell called Sunday on their sister, Mrs. William Colgrove, who is ill.

Mrs. Leonard Hoaglin and son David of Addison visited her sister, Mrs. J. Willard Gossner one day last week.

Lacey Speaks at Arkport Graduation Exercises

"Where Are We and Where Are We Going" was the topic of a talk given to the graduates of the Arkport High School Monday night by the Rev. Garland G. Lacey of the Methodist Church of Addison. The speaker was presented by Principal Frank Van Vleet. There were 13 graduates in the class.

The Rev. Lacey pointed to a changing world in which these graduates are to take their places and of the opportunities for service in their own communities and in the world, even without a college education.

Bernice Aumick June Bride of Luke Brown

Two popular and well liked young residents of this community were united in marriage Saturday night, June 25, 1938 in the persons of Miss Bernice Aumick, daughter of Mrs. John Aumick of the Goodhue and Luke Ellis Brown, son of Mrs. Leah Brown of Front street. The ceremony was performed at eight o'clock in the home of Justice of the Peace Dan J. Colbert. They were attended by Mrs. Colbert and Miss Margaret Kelly.

The bride attended the Addison High School and is now engaged in beauty culture work, owning her own shop here. The groom is a popular member of the local volunteer fire department and also owns and operates his own business.

Sunset Sing Held Saturday On AHS Lawn

Fifty students of Addison High School joined voices on the lawn in front of the school Saturday night for the picturesque and colorful sing. In addition to the singing group there was a large group of spectators from the community and vicinity. The group was led in singing by Glenn Sprague, director of music in the Addison High School.

As usual, in these affairs, there were many more girls than boys, however, there were enough boys to give some volume and depth to the singing.

Among the numbers presented were: "O Susanna", "Little Brown Jug", "The Old Grey Mare", "Carry Me Back to Old Virginia", "Dixie", "Seeing Nellie Home", "Sailing, Sailing", "Monlight and Roses", "And the Band Played On", "The more We Get Together", "Pagan Love Song", "Swing Low Sweet Chariot", "In the Evening by the Moonlight", "I'm Always Chasing Rainbows", "Auld Lang Syne" and the finale was the "Alma Mater".

"Independent Thinking Needed In This Transitory-Propaganda Era" Pott Tells Class of 1938

(Continued From Page One)

"This is a day of rejoicing for you, not altogether untouched, I dare say, with sobering and serious thoughts of the future. In a certain sense you are not being so much graduated as catapulted into a strange, disordered and clamorous world where we are being told opportunities for youth are more restricted than ever before. Looking at education from a strictly economic or monetary standpoint, you have heard, or may have already found out for yourselves, that America is no longer a fairyland of financial opportunity for either high school or college graduates. I don't know how you feel about this. Perhaps some of you are discouraged, but I am one of those who incline to the view that it is not in the nature of youth to stay downhearted for very long. I sometimes suspect that all this talk of the 'lost generation' is a little overdone. The other day I was reading a comprehensive report of a commission that had been surveying the so-called 'Youth Problem' and here is a sentence which, it seems to me, contains pretty strong language. 'Between the day when, for whatever reason, the young person sees the last of his school room and the day when he experiences the gusto of his first job, there has developed what, for him, is a veritable 'No Man's Land of final futility'.

"Are you really going out into a No Man's Land of final futility, or what is more important, do you think that you are? Jobs are hard to get today, harder to get than a few years ago. But I think it is important that we keep our perspective. The kind of jobs that we would like to get today were always hard to get and many of them did not even exist a decade or a generation ago. Just remember too that if it is more difficult for high school graduates to land jobs to their liking than it used to be, today there are two and a quarter million more students enjoying the privileges of a high school education than there were when you were born, and a generation ago only one hundred thousand high school students were leaving schools to go to college or out in the world as compared with a million today.

"Now I am not going to tell you how to land a job. Indeed, I could not if I would, but this I would like to say to the Class of 1938. Although the immediate future may look a bit grim and somber, present dislocations in our economic order are only temporary and it would be a thousand pities if any of you felt like selling America short. I realize that it is small comfort for the high school graduate in quest of a job to remind him that under conditions of a generation ago, we very likely would not have been a high school graduate at all. But this is still the finest country in the world to be living in and looking for a job. From a material standpoint I will not go into dreary statistics more than to say that with something like 7% of the world's population, our people enjoy from 60% to 80% of the world's conveniences, such as automobiles, electricity and electric appliances ,telephones and radios. In this respect we are favored more than ten to one over any people on this globe. Our relative consumption of food and necessities surpasses the average of the earth by 80%, and of our nearest competitors by 40%. Our people, one hundred thirty millions, have a purchasing power equivalent to five hundred million Europeans or a billion Asiatics. Doubtless we can learn much from other countries, but not, I believe, enough from any to change the formation of an economic and political system which has done so many things more for our people than any of those systems have done theirs. Our plan is not perfect, but I for one have faith in American courage and resourcefulness, American spirit, sense of fair play, tolerance and adherence to principle, which will ere long usher in a new day, bright with promise that will dawn upon a finer and more prosperous America than we have yet seen. I would not belittle the seriousness of present maladjustment, arising from the fact that mechanization and purchasing power are temporarily out of line. It is a mistake to think that the machine in the long run creates unemployment. Science and invention, of which our machine age is the expression, create new industries which produce a constant stream of new goods at ever lower prices, so that what were considered luxuries a generation ago are necessities for the average man today. The continuation in improvement of the American standard of living through the machine depends upon the maintenance and increase of mass purchasing power. The fact that mechanization and purchasing power are temporarily out of line is a condition that need not and will not be permanent. We must not accept the philosophy that America had come to a dead end. We have but to look back on our past to have hope in the future.

"Not only are we favored above all other people in a material respect. We are blest in this country by freedoms not to be found in other lands where those freedoms have been forfeited for employment of some sort that amounts to servitude to the State. We in this country can laugh at our rulers and caricature them in the press or on the stage in such a play as "Of Thee I Sing". We can laugh at the court-room antics of a Mayor Hague. But you can't do that sort of thing in Germany or Italy or Russia or Japan. We in this country can make mistakes, but you can't make mistakes in dictator countries without being tried for sabotage or treason with the trial which is a travesty on justice. We in this country are free to speak our own minds without the daily and hourly dread that some spying, eavesdropping person will report us to be summarily dealt with as enemies of the State. Yes, this is the best country in the world to live in and it is our plain duty, it seems to me, to make the most of it. America needs you, needs you very much as citizens of democracy, whatever your job or calling may be. Over 2,000 years ago Plato, who is one of the greatest thinkers this world has known, put the matter very succinctly. 'We call one man educated and another uneducated', he said, 'although the uneducated man may sometimes be very well educated indeed in the calling of a sea captain or of a trader or the like. But we are not speaking of education in the narrow sense. We are speaking of that other education which makes a man eagerly pursue the ideal perfection of citizenship.' That passage from Plato might well be inscribed over the portals of every school house in the land.

"In addition to paying his taxes, the citizen of a democratic state owes his government considerable private thinking. The unique and distinguished feature about democracy is that it depends upon the responsibility of the individual. Unlike Communism and Fascism, or any form of the totalitarian state, democracy assumes that the citizen is capable of making the fundamental decisions. The essence of democracy is a body of citizens who are capable of private thought and collective action. Ultimately they make the decisions. That is why in this great country of ours from the very beginning supreme importance has been attached to education at the expense of the state and that is why we have developed such wonderful opportunities for public education. America needs men and women of discriminating intelligence and sound judgment. Where else can it look for such people except to the graduates of our high schools and colleges?

"In this age of scientific marvels nothing is more impressive than the development of means of communication, of transmitting the written, the spoken and the graphic word across vast spaces instantaneously and simultaneously to millions of persons. On a certain evening last week millions of persons were hearing a vivid description of a prize fight. It didn't last long, but it was vivid. They were participating in the excitement of actual eye-witnesses. Soon we shall be able to both see and hear events at a great distance as they occur. And within 24 hours of this contest millions were viewing the motion pictures of the fight. Now the point is that these marvelous scientific developments in communication which are bringing peoples and nations closer together than they have ever been before, making our nation into a neighborhood, do not necessarily promote better understanding or clearer thinking. They do not necessarily make 'for a free trade in ideas", to use the happy phrase of the late Justice Holmes. On the contrary, they may facilitate the spread of mass emotion and hysteria and confused thinking, so that the ends not of democracy but of demagoguery and quackery are served. I think that I do not exaggerate when I say that never before in their history have the people of these United States been so subjected to and influenced by the special pleading and emotional appeals of powerful pressure groups. Utilizing all the modern means and techniques of propaganda, they are out to win the favor of the public. It has been well said that any propaganda can propagate if it finds a proper goose! Democracy needs people of enlightened judgment with a capacity for some independent thinking, so that they will not be easily misled. The ability to develop this capacity is the responsibility of each one of us whether we go on to college or not. An educated person is one who is always continuing his education.

"This speech is already longer than I had intended it to be. There is an old French proverb to the effect that any place in a speech is a good place to stop. If, as far as you have gone, the speech has been good, that is a good place to stop. If, as far as you have gone, the speech has been bad, that is a still better place to stop. I wish that it were possible for human skill and ingenuity to construct a lens by which we might gaze far into time as the Corning Glass Works has built the world's greatest lens for looking far into space. The future is uncertain, but it is reasonable to have faith in it, the sort of faith that St. Paul defined as the "substance of things hoped for, the evidence of those not seen". You who have the priceless gift of youth must and can revivify the spirit of our country.

"Perhaps some of you in this Class of 1938 will have the privilege of going to college. The majority of you, however, will be eager to make some sort of start in the outside world. To all of you let me say a final word of tempered optimism. Although we are going through a difficult transition, the course of human achievement moves strongly forward. And if the current sets against you in the beginning, remember that for the young and strong, adversity has truer value than the ease of prosperity. Courage, character, thrift, unselfishness, concentration, are among the priceless character forming qualities which flow from hardships overcome. If the ocean were a mill pond, the world would never have known mighty ships or stout hearts at their helms. It is the contrary winds that develop strength. It is a significant American trait that in either industry or the professions or domestic affairs, we value, applaud and encourage the person who does more than is required of him or her. You don't need to claim credit for ever-exertion; the fact will be noticed and the constructive attitude will command respect and reward. Business puts the case in one sentence: 'The fellow who never does anything more than he is paid for, never is paid for anything more than he does'. I recommend that you adopt as a rule of life this simple one of always doing a little more than is expected of you. There are so few who do, that it will not be long before you stand out as a notable individual.

"May I also suggest that whether you are going on to college or not, you seek to embrace some cause larger than yourself and work generously for it. This will improve both yourself and the society in which you live. The cause you choose to serve may be one of such nobility that your championship of it ennobles you in the eyes of others; or it may be humble, and known to yourself alone. Nevertheless, the sacrifice you make for it, even though hidden in your heart, will enlarge your life and the life of the community of which you are a member.

"The difficulties of our day are passing difficulties. If you will take it so, the twilight of our time is the morning and not the evening twilight. It is the lark, and not the nightingale that you are hearing. Let no one think that we are living in a finished world. Let no one think that America is a 'No Man's Land of final futility'. America needs you, your training, your enthusiasm and your idealism. This is the point of view, this is the message of hope that I would leave with you as we all wish you 'Godspeed'."

The Rambler

Wouldn't it be strange if—

Charles was a derrick instead of a Crane

William was a prince instead of a Barron

Stuart was a tomato instead of a Bean

Ray was white instead of Brown

Milton was a stork instead of a Crane

Mel was a wheel instead of a Hubb

Wilfred was a blacksmith instead of a Miller.

Ken was legstrong instead of Armstrong

John was a poster instead of a Chart

Garland was silky instead of Lacey

Bill was a teacher instead of a Miller

Guy was president instead of Mayer

Lew was a valley instead of a Hill

Waldo was master instead of Butler

Coral was an ache instead of a Payne

Winfield was short instead of Long

B. F. was long instead of Short

Martin was a caboose instead of a Train

Charles would ride instead of Park

Walt was a clerk instead of a Smith

Albert was backward instead of a Head

John would glisten instead of Rus(t)

Bill was an old man instead of a Newman

Burdette liked wines instead of Beers

Huburt was a paddle instead of an Orr

Eugene would swim instead of Wade

Ralph was a foot instead of a Hand

Irving was a bluestone instead of a Gladstone

Lew was clumsy instead of Handy

Lynn was a cobbler instead of a Taylor

Fred was a heat wave instead of a Frost

Bill was salty instead of Pepper

John was an Odd Fellow instead of a Grange

Frank was big instead of Little

John was wrong instead of Wright

Joe was an iceman instead of a Coleman

R. E. was a painter instead of a Dyer

George was a slave instead of a Freeman

Francis was an umbrella instead of a (K)ane

—o—

Norman Phelps, Jr., was the proud fisherman who snared a three and one-half pound pike in the Canisteo one day last week using a spinner. The catch was made in the Connor's rift, east of the suspension bridge.

—o—

Got quite a kick out of reading about the widows and widowers picnic planned in Bath. It was made especially funny by the fact that the whole affair was organized by a maid and a happily married woman.

—o—

One of the vicinity commencement speakers heard his remarks characterized as follows: "you graduates have heard words of ammunition from the commencement speaker". Must be dynamite in them words.

—o—

May the Rambler join the many who are wishing Godspeed to the graduates of high schools this year and also to those who have graduated from colleges. As Thomas Paine said, "These be the times that try men's souls". And I'm sure that the boys and girls who survice these times will come out on top. Those who give in and fall by the wayside will be the failures of tomorrow.

—o—

Notes on the Twilight Sing. Many students stood across the street when they should have been with the group. Where were the boys? The greatest applause was from the group interested in Joe Sprague. I like the Senior Sing but I do think the group could have made much more noise for I have heard some of them at athletic contests and know they have greater volume than was displayed Saturday night.

—o—

I noticed one woman in blue jigging in great fashion when the group was singing "The More We Get Together".

—o—

The band concert was rained out Saturday night and it was a hard question for some to decide whether they wanted the rain more than the band concert owing to the dryness of the past few days.

—o—

The rain Saturday night, Sunday and Monday was one of the most welcome rains of the year for the farmers and gardeners of this vicinity for the soil was very dry. In addition to being a welcome rain it was a rain that did not bring high winds or destructiveness with it.

—o—

Have you noticed that the baffle plates on top of the Main Street bridge no longer rattle when cars go over them? Especially those on the west side of the highway.

—o—

There are over $1,800 in back school taxes due in this district and an earnest request is made for payments before June 30.

—o—

That's all.

—The Rambler.

Seniors Give Plans For Coming Year

Many senior boys and girls have chosen their life vocations and plan to prepare for them by suitable college or other preparatory work. Early in the current school year, as part of the vocational guidance work instituted in Academic institutions, students were asked what their hopes were for the future. This information is considered confidential and hence is not for publication. However, some of the boys and girls to graduate have definite aims. In preparing for this work the Advertiser here presents a list of what some of the students plan to do next year.

Nursing and teaching lead the list of the future work for the girls with beauty culture a strong contender. Many of the boys plan to take farm work for a life's vocation and continue in the paths of their fathers.

Lucy Beers plans advanced educational work, Margaret Bergin plans to work, Anna Brennan is going to Geneseo Normal School, Evelyn Brooks is undecided as to her future, Catherine Burton plans to go to Elmira Business Institute, Maude Butler is desirous of becoming a nurse, Arlene Costley will remain at home a year before determining her course of advanced work, Thelma Dann and Julia DeGraw are undecided, Elizabeth Dickerson hopes to enter Arnot-Ogden Hospital to become a nurse, Ruth Dininny will enter Geneseo Normal.

Dorothy Fenton will post grad a year and Elsie Fenton will go to business school, Alberta Gage will go to Sonyea for a nursing course at Craig Colony, Edith Gould is expected to do post graduate work and Waneta Graham will keep house for her husband.

Onalee Hunt will do post graduate work, Ellen Knebel will go to Skidmore, Helen Kneaskern plans to take a nursing course, Onolee Little will post graduate, Alice Magoon is expecting to go to Elmira Business College, Pauline Martin is undecided, Margaret Matthews hopes to go in training for nursing, Janice Nichols is going to study music, Elizabeth Perry is going to Fredonia to study public school music, Beverly Phillips is going to post graduate for a year, Bernice Ricker is going to Vicksburg, Miss., to take up nursing.

Doris Saxton hopes to do beauty parlor work, Lucille Shoemaker plans to work for a year before entering nursing, Edythe Silsbee will post graduate, Iris Stone is undecided as to her future, Iva Thomas is also undeeided, Louise Watkins plans a course in beauty culture, Barbara Whitmore is going to Cornell to take up home economics work in preparation for teaching and Vesta Wilson plans to work.

The vocations chosen for the boys as well as for the girls show the value of vocational guidance work in high schools during the scholastic years. Cooking Meat

"A good meat dealer not only knows the different cuts of meat, but also how they should be cooked," said Catherine Personius, professor at the New York State College of Home Economics, at a recent short course for meat retailers at Cornell.

"Use low temperature for all meats. Use a dry heat for tender cuts, that is roast or broil them. Cook less tender cuts slowly with liquid," she emphasized.

"The easiest way is often the best way to cook meat. To prepare an oven roast, simply rub the meat with salt and pepper, place it on a rack in an uncovered pan, without water, and cook at a low temperature until it is done. Basting, once considered essential, is unnecessary if the meat is placed fat-side up so that the melting fat will drip over the surface; and searing is now considered undesirable because it causes greater shrinkage of the meat."

"Low temperature", means about 300 degrees Fahrenheit, and cooking at this temperature prevents excessive shrinkage of the meat, and produces a tender, juicy roast that is uniformly cooked throughout, the meat men learned. "Cooking meat only until rare or medium-well-done makes it the most tender and juicy; pork, however, should always be cooked until it is well-done."

"To broil a piece of meat, place it on a rack two or three inches from the heat source in an oven that has been preheated to 325 or 350 degrees Fahrenheit. When the meat is nicely brown and about half done, season, turn and cook it for the same length of time on the other side."

Tim McCoy Has Narrow Escape on Western Film Set

On a Monogram western set, there is usually little time for sport between takes, but if the boys can escape the keen ears of the sound man, who won't even stand for an echo, they usually hold a little shooting contest of some sort.

On location for "West of Rainbow's End", coming Friday and Saturday to the Avon theatre, Tim McCoy, star of the picture, originated a new kind of contest which proved to be a dangerous sort.

The boys would stand back to back, and at a given signal, would walk away from each other, as in the old duels which cost so many lives in the early days of the south and west. Then, after they had counted fifty paces, "Fire"! was shouted from the sidelines, by a "second", and there would be a couple of quick turns and a couple of quicker shots at a target placed in the center, equidistant from each. The object is to see which one is quicker on the draw.

TO PLAY GANG MILLS

The Addison Little Six baseball team will journey to Gang Mills Saturday afternoon at 2:30 to play the Litlle Six team of that place.

Hopper will probably be the starting pitcher.

Addison Host To Woodhull Ball Nine Sunday

Woodhull will send its baseball team to Addison Sunday afternoon for a Little Six contest against Addison. The teams will meet on the school diamond at 2:30 o'clock. Flynn will be on the mound for Addison. This is expected to be one of the big attractions of the year for baseball fans here owing to the keen rivalry existing between the teams for many years.

The locals have had a fairly successful season owing to the heavy hitting of the members of the squad. The team batting average has been augmented by the addition of some of the heavy hitters from the high school team of the past season and the locals now have a well-organized and well rounded squad.

MASONS TO AVOCA

Addison and vicinity Masons will attend the dedication of the Avoca High School Monday. Past Grand Master Jacob C. Klinck will perform the Masonic ritual of the cornerstone laying. There will be a parade, carnival and picnics.

Girl Scouts Honored at Thurs. Rally

Martha Laffkas, Scribe

Seven Girl Scouts will attend camp this summer as guests of the Council by virtue of outstanding work in the local troop this year. These girls are: Patricia O'Reilly, Barbara Keck, Mary Elaine Hess, Martha Laffkas, Shirley and Helen Auringer and Betty Gene Kennedy.

The entertainment program for the Girl Scout rally on June 23 was a pet story by Patricia O'Reilly, folk dances by the Lone Star Patrol and demonstration of knots by the Safety Patrol. Gold attendance pins were awarded to Margaret Gladstone, Helen and Shirley Auringer, Helen Dann, Norma Grandon, Roberta and Louise Groce, Florence Butler, Mary Hess, and Patricia O'Reilly. Silver pins were given to the following: Eileen Butler, Betty G. Kennedy, Marion Baker, Mary Benedict, Barbara Lowe and Martha Laffkas.

Those who received badges are Helen Auringer, scholarship, musician and ex-patrol leader; Mary Lyons, gardener; Margaret Gladstone, scholarship; Helen Dann, patrol leader; Waneta Mead, patrol leader and scholarship; and Martha Laffkas, second class scholarship and scribe.

The most outstanding girl in the Shell Patrol is Helen Auringer; in the Lone Star, Margaret Gladstone; and in the Safety Patrol, Martha Laffkas. These girls were given Girl Scout book-ends.

Refreshments were served to the following: Mrs. Irving Gladstone and Margaret, Mrs. Matthew Whitmore and Barbara, Mrs. Peter Laffkas and Martha of the Council. Other Scouts and mothers present were: Mrs. Benedict and Mary, Mrs. Grandon and Norma, Mrs. Keck and Barbara, Mrs. Dann and Helen, Mrs. Kennedy and Betty, Mrs. O'Reilly and Patricia and Phyllis, Mrs. Groce and Roberta, Louise Jean and Shirley, Mrs. Auringer and Helen and Shirley, Mrs. Bebout and Marie, Mrs. Hess and Mary Elaine. Other Scouts present were Waneta Mead, Doris Heidrick, Barbara Lowe, Florence and Eileen Butler, Marion Baker, Mary and Katherine Lyons, Mary Archer and Frances Bennett. Guests were Katherine Archer, Dorothy Allen, Elizabeth Kelly and Jacqueline Switzer.

Dr. Auringer Has Interesting Experience At Manlius

Dr. Horace Auringer should be a firm believer in the fact that truth is stranger than fiction. He attended graduation exercises at Manlius School last week.

Present at this same graduation were Drs. Oaksford of Gloversville and Curtis of Albany who also had sons graduating from Manlius. The coincidence does not end there, for all three doctors had been classmates together in Albany Medical school, had enlisted in the army at different points and all sent to the Army Medical School in Washington together. In addition all were assigned to overseas service at about the same time and all served in France.

MASONS END YEAR

The last communication of Addison Lodge of Masons for the present season was held last week in the lodge rooms. All business for the year was completed and adjournment was taken to September. Three candidates for the lodge will be presented at that time.

Five Arrests In Addison Over Week-End

Chief Elmer Bovee spent a busy week-end with five arrests being made and several warnings being issued to reckless drivers and others.

The first arrest for a bicycle not being properly equipped with head and taillight and reflector was made in Addison. The bicycle was being operated at ten o'clock at night in violation of the recent state law regulating bicycles. The operator of this machine was endangering his life on the highway and impeding the progress of cars. He was fined $2.

Other arrests over the week-end were for shooting firearms in the village without a license, reckless driving of a motor car on Front street, reckless driving on Tuscarora street and operating a motor car with faulty equipment on Tuscarora street.

These arrests were made only after several warnings had been given.

RISINGVILLE

A fine program was enjoyed by the many who attended church here Sunday evening, which was given in observance of Children's Day. This was done under the direction of Mrs. Rex Starr and Mrs. Bertha Turner. A fine delegation from the Christian Church in Thurston was also present.

Frank Ingraham of Vestal called on friends here recently.

Margaret Decker is much improved after her operation at Bath Hospital.

Many from here attended graduation exercises in Campbell Friday evening. Those from here who were among the class graduating were Marian Buck, daughter of Dan Buck; Wilton Emerson, son of Mr. and Mrs. John Emerson and John Hanrahan, son of Mr. and Mrs. J. P. Hanrahan.

Lauretta Fisk of Ohio is spending some time with relatives in this vicinity.

Kenneth and Raymond Starr of Bolivar spent the week-end with their parents, Mr. and Mrs. Rex Starr.

Finley Shauger was in Syracuse recently.

Mr. and Mrs. Clifford Turner were in Bath Saturday evening.

Harold Tucker is on a sight seeing trip to Washington, D. C. and other points of interest.

North Side Opposes South Side Softballers

Keen rivalry is being created in preparation for the softball game tonight (Thursday) at 6:30 o'clock between the north side and south side, with the river as the dividing line.

In addition to the names mentioned, anyone wishing to show up will be used in the lineups of the respective sides in order to give everyone an opportunity to play and show his loyalty to his side of the town.

The Northsiders will have Ken Armstrong, Gib Doddato, George Hopper, "Pipe" and Fran Heidrick, Mike Triches, Dick Willis, Wendell Hewson, John Grange, Jim Tobin and Bill Wilson.

The Southsiders are expected to lineup with Milt Crane, Bill Root, Louie and Joe Dominick, Ralph and Russ Wade, Jim Kelly, "Blazer" Hadlock, Robbins, John Flynn, Frank Finnerty and Hargrave.

Marines Help Italian Vessel

Loaded with explosives and other combustible materials, the Italian ship Delaide lay at anchor in the harbor of Callao, Peru, in June 1873. The ship caught fire and threatened every moment to explode, incurring the loss of lives and the spreading of the flames to other vessels in the crowded harbor.

As the smoke curled upward from the vessel's deck and its crew battled desperately with the flames, the distressed ship attracted the attention of other vessels anchored nearby. Among them was the American warship St. Mary's on a friendly visit to Peru.

A call for volunteers among the American sailors and U. S. Marines of the St. Mary's met with an immediate response. Soon the ship's cutters were lowered and their crews pulled away for the flaming ship, heedless of the risk of losing their lives in an effort to save a foreign merchant vessel.

After some severe exertion, accompanied by great danger, the Americans succeeded in extinguishing the flames, fully aware that at any moment the entire cargo might explode, sending the Italian crew as well as volunteers into oblivion. When the danger had passed, the marines and sailors returned to the safety of their own ship.

The King of Italy, through his minister of foreign affairs, conveyed the appreciation of the Italian government to the brave officers, seamen and marines who had taken part in this endeavor, and for their "gallant and skilful services" in lending their aid to a friendly nation.

BEWARE JULY 4

Fourth of July is coming and with it the usual holiday week of accidents, burns and mishaps. I'm hoping that those of Addison and vicinity will return to their homes well and happy after the holiday and will not be jammed up in auto accidents or burned with fireworks. We newswriters usually have a harvest of accident cases after each holiday. What will our paper say next week about your driving or your playing with fireworks.
